## Conectra

Conectra has more than 30 years of experiences with High quality of complicated sewing operations and product development.

Our field of activity: among many others, upholstery, cruise liner interior, boat cushions

Co-operation with Inha works products did start already more than 10 years ago, by a single model seat covers

and have been extended for several models` complete cushion sets both in Buster and Yamaha brands.

Conectra and Inha works share the same passion for high quality and seamless product chain from models to production orders.
